

CITY OF MUSKEGON  
RESIDENT/COMMUTER

# Housing Survey

Muskegon County Residents, Employers, and Commuters are encouraged to complete the 5-Year Housing Needs Assessment.

The City of Muskegon has contracted with Bowen National Research to conduct a 5-Year Housing Needs Assessment for our community. This study will provide data to the City government and other stakeholders as to the number of housing units, type of units, price points, and other trends that our market will be best suited for in the coming 5 years.

A large data collection is critical to a successful survey. Please share the survey link with your networks to spread the word about the housing survey. Deadline to complete survey is December 31, 2022.
